

# Greenhouse

## **Decorate your gardenhouse!**

A tent shaped structure that creates an artificial environment for optimal plant growth

## Uses

- Protection for plants from scorching heat & pouring rains
- Reduce house temperature by 3-4C
- Grow more variants of plants that cannot be normally grown in hot areas

## Details Of The Structure\*

A 12\*15\*8 feet tent shaped frame built using 2" GI pipe and clamped/concrete-packed to the wall. A green shade (50%) net is wrapped around the frame across all expect two sides.

## Offer!

- 50 Ornamental plants free
- Decorate your greenhouse!
